**Secluded Sublime Samana Celebrates Newfound Accessibility and Jet Blue's
Newest Route with a Special Traveler Discount**

Dominican Republic's Stunning New, Boutique Hotel is an Ideal Vacation Spot

Las Terrenas, DR, October 23, 2012 – Nestled on the Dominican Republic's most pristine shore, Sublime Samana Hotel & Residences is celebrating Jet Blue's new route into Samana with a special incentive for Jet Blue travelers. Effective November 14, Jet Blue will begin to offer twice weekly flights between New York City's John F. Kennedy International Airport (JFK) and Samana's El Catey International Airport (AZS).

In celebration of its newfound accessibility, Sublime Samana Hotel & Residences is offering those travelers flying Jet Blue a 15% discount off regular room rates for stays booked prior to December 20, 2012.

An ideal vacation spot for families and couples alike, the recently opened Sublime Samana offers guests access to a collection of 20 private suites and casitas overlooking a spectacular matrix of interlocking pools stretching to the inviting sea. Far off the island's usual tourist trails, the secluded property provides guests access to six-miles of sandy, palm-fringed beach. The breathtaking turquoise waters, steps from the pure golden sand, are unmatched anywhere in the Caribbean.

Sublime Samana's remarkably spacious accommodations, from one-bedroom suites to three-bedroom casitas, all feature large bedrooms with king-sized and double beds. One of the most inviting features of all rooms is the commodious sitting room and fully equipped kitchen. Guests can unwind after a day of exploration or beachside relaxation on their own private veranda – take a soak in their outdoor whirlpool and watch the sunset over the horizon.

The Samana province of the island's northeastern coast remains one of the most undiscovered, unspoiled natural habitats of the Dominican Republic, and notably the Caribbean as a whole. In a setting surrounded by a backdrop of lush, tropical mountains, guests enjoy unparalleled seclusion, while swimming through sparkling turquoise waters and relaxing in luxurious shaded sunbeds that virtually hover above the property's serene pools.

Those looking to venture off the property can embark on excursions including snorkeling adventures and trips to the spectacular Limon waterfall or to the National Park Los Haitises with its calcified hills, caves, mangroves, multitudes of bird species and exotic sea turtles. Guests visiting between January and March, can take a whale-watching boat

trip to see the humpback whales arrive annually in Samana to mate, give birth and nurse their young.

Rates start at \$300 per night. Sublime Samana is located 17 miles from El Catey International Airport, an easy 30-minute drive. Round trip transfers between the Samana airport and the hotel are available for \$144. For further information on Sublime Samana visit www.sublimesamana.com or call (713) 528-7862.
